The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customise it as necessary. You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

How will you manage access and security?

Access management and security

1. Access management and security / Access management and security
2. Access management and security / Access management and security
3. Access management and security / Access management and security
4. Access management and security / Access management and security
5. Access management and security / Access management and security

Access management

1. Access management "Access - Access - Access - Access" Access management and security
2. Access management and security / Access management and security
3. Access management and security / Access management and security
4. Access management and security / Access management and security
5. Access management and security / Access management and security + Access management and security

Access management and security

1. Access management and security / Access management and security + Access management and security / USB Access management and security
2. Access management and security / Access management and security
3. Access management and security / Access management and security
4. Access management and security / Access management and security

Access management and security

1. Access management and security / Access management and security
2. Access management and security / Access management and security
3. Access management and security / Access management and security VPN Access management and security
4. Access management and security / Access management and security

Access management / Access management and security

1. Access management and security / Access management and security HTTPS/SFTP/VPN Access management and security Wi-Fi Access management and security U Access management and security
2. Access management and security / Access management and security Access management and security
3. Access management and security + Access management and security Access management and security
4. Access management and security / Access management and security Access management and security
5. Access management and security / Access management and security Access management and security

Selection and Preservation

Which data are of long-term value and should be retained, shared, and/or preserved?

[illegible]

What is the long-term preservation plan for the dataset?

[illegible]

Data Sharing

How will you share the data?

[illegible]

Are any restrictions on data sharing required?

□ □

Responsibilities and Resources

Who will be responsible for data management?

DMP

What resources will you require to deliver your plan?

1. 2. 3. 1. 2. 3. IT VPN

Planned Research Outputs

Dataset - "Population of the United States"

This dataset represents the population of the United States from 2023. It includes data for all states and the District of Columbia. The data is sourced from the U.S. Census Bureau and is available in both CSV and JSON formats. The dataset contains approximately 200-800 records, with a file size of approximately 300-500 MB. The data is licensed under the Creative Commons Attribution 4.0 International License. The dataset is available for download from the following link: [https://www.census.gov/data/tables/2023/total/total.html](#). The dataset is updated annually, with the most recent update occurring in January 2024. The dataset is available for download in both CSV and JSON formats. The dataset is available for download from the following link: [https://www.census.gov/data/tables/2023/total/total.html](#). The dataset is updated annually, with the most recent update occurring in January 2024.
